

Torrance Council PTA Records Successful Membership Week

Torrance Council PTA, 33rd District, has culminated an active week with all 25 associations taking part in two major projects of importance to the community.

Membership enrollment week totaled 14,600 in a week's time, and many schools have not finished their drives.

A concentrated door-to-door campaign on the \$15,000,000 school bond was made by each school PTA group in an effort to stimulate interest of voters. Each furnished speakers from the Unified School District to explain the issue at the unit meetings. In some areas transportation to the polls and baby sitting was furnished.

Express Thanks

When a baby eats away from home—in places where you can't be sure of the conditions under which the milk has been kept, Automobile Club of Southern California travel experts caution that you should be sure the milk is boiled before giving it to the infant. On the other hand, you may want, a week or so ahead of the time you travel, to begin getting the baby used to the taste of evaporated milk. This is the simplest solution for feeding the baby on the road.

Estimate Cost to Stop Hill Land Slippage

It will cost between \$24,000 and \$30,000 to stop a slide which is endangering homes on Portobello Drive and Grand Summit Road.

That's what John V. Russell, director of public works told the City Council Tuesday following an investigation into slippage on the hillside.

Following a warning by City Attorney Stanley Remelmeier, the council decided not to spend municipal funds to correct the erosion, but instructed a city employee to determine if property owners will pay for the drain which will have to be installed.

Although only four lots are presently involved, city officials expressed fear that the condition might spread.
